OBJECTIVES

Motivated and detailed-oriented web developer with a strong foundation in the MERN Stack (MongoDB, Express.js, React.js, Node.js). Passionate about building responsive and user-friendly web application. Skilled in JavaScript, REST APIs, and modern front-end development. Seeking an opportunity to apply my skills and grows as a full-stack developer while contributing to innovative tech solution

EDUCATIONS

Ramanand Arya DAV College 14/07/2023 - Present
Bachelor In Information Technology

Ramniranjan Jhunjhunwala College 07/07/2021 - 25/03/2023
HSC: Science

SKILLS

- **Technical Skills** : MongoDB, Express.js, React.js, Node.js, Tailwind, Git, Github
- **Tools** : Visual Studio Code, Postman
- **Language Known** : English, Hindi, Marathi

PROJECTS

RentFix – Landlord & Tenant Management System

- Developed **RentFix**, a **Next.js-based issue management system** where tenants can report room-related problems such as maintenance or facility issues.
- Allows landlords to view, track, and take action on reported issues through a centralized dashboard.
- Streamlines tenant-landlord communication by maintaining issue status updates for faster resolution.

InterviewEdge – AI Based Interview Preparation Platform

- Developed a full-stack AI-based interview preparation platform using MongoDB, Express.js, React.js, and Node.js (MERN).
- Implemented user authentication, personalized AI-generated interview questions, and progress tracking.
- Built a responsive and interactive frontend with React.js and integrated dynamic APIs for real-time content.

SceneStream – Movie Catalog Web Application

- Built a React-based movie catalog application that fetches movie details (title, year, poster, and genre) from an external API.
- Designed a responsive UI with search and category filters, improving usability and mobile accessibility.

QuickCart - Shopping Platform

- Developed a user-friendly web application for online shopping using HTML, CSS, Bootstrap and JavaScript.
- Integrated responsive design and animations for enhanced user experience.
- Implemented dynamic features such as product search and filtering.
